**Presentation:** Loving Your Job...and Getting Others to do Likewise!

One of the great keys to successful projects is team engagement, enthusiasm and attitude. And while that's a very personal thing, it's also something that we, as project managers (and team members, for that matter) have an extraordinary level of influence on. We can build enthusiasm or crush it like a grape. To succeed, enthusiasm and a positive attitude must be honest. And in a "first things first" perspective, Carl Pritchard examines how we can make our jobs more positive, even when they're not the ideal. He'll look at how project management can naturally feed an infectious, positive attitude, given the opportunity. And by the time you log off, you'll have three specific things you should be doing tomorrow (and a couple you're already doing) that will provide you and your team with a higher sense of hope and promise for the days ahead.

**Speaker:** Carl Pritchard, PMP, PMI-RMP, EVP

Carl is a lecturer, author and thought leader in project management and risk management. He is the author of 7 books, including the Project Management Communication Tool Kit, 2nd Edition. He was the lead chapter author for the Risk Management chapter of PMBOK 4th Edition, serves as the US Correspondent for Project Manager Today (UK), and sits on the board of directors of [ProjectConnections.com](http://ProjectConnections.com). He has lectured around the world, and is considered one of the "fun guys" of project management. He co-produced The Portable PMP Prep, an audio series soon to be released in its PMBOK6 edition.

The Hampton Roads Engineering Societies Calendar is a free e-mail calendar of engineering society events for the Hampton Roads area. It is open to the public and all societies are invited to advertise their events.

Any society may send in announcements (monthly meetings, EXCOMs, conferences, ...) for distribution. They can be as colorful as you wish. I accept most any format. Announcements are distributed via email each month in PDF (a link to the download file) and ASCII/text formats. PDF files allow for ruffles and flourishes, such as society logos, banners, et al. I can convert the essential details of an announcement for the text version of calendar. Please forward your society's announcement to me by the 20<sup>th</sup> of the month and include contact information for your fellow engineer and in case I have questions.

List members receive a monthly text-only e-mail calendar of events. The latest PDF version of this file is available on the Peninsula Engineers Council website [http://www.va-pec.org/events/HREE\\_calendar.pdf](http://www.va-pec.org/events/HREE_calendar.pdf). Send an email to [w.labelle@ieee.org](mailto:w.labelle@ieee.org) if you desire to be notified when new PDF versions are available.

Calendar users can:

- \* Join the list by sending a blank e-mail to [sname-subscribe@yahoogroups.com](mailto:sname-subscribe@yahoogroups.com) [text version], or
- \* Receive notices when the PDF version is available by sending a message to [w.labelle@ieee.org](mailto:w.labelle@ieee.org).
